AgMarket.Net® Unveils Upgraded App

AgMarket.Net®, the Farm Division of John Stewart & Associates, announces the debut of its new app with improved software.

The AgMarket.Net® App, with revised MyFarm software, is now available on Google Play and the Apple App Store as a mobile app. A desktop version is also available through the AgMarket.Net® website.

“We are proud to reveal a modernized touch to the original platform our clients enjoy,” says AgMarket.Net® partner Jacob Burks. “We believe the modified platform will benefit farmers and producers with their marketing decisions.”

The company partners say the app provides a flexible format to assist in grain marketing. This includes evaluating multiple profit scenarios, maintaining a dashboard of farm-marketing operations and viewing local cash and futures bids. With the upgraded MyFarm software, a person is able to track production costs, calculate dynamic break-evens and record crop sales within multiple farms. The platform allows a user to receive push notifications of their favorite AgMarket.Net® Intel when published.

“In addition to us providing this solely to our clients, we are now offering a subscription service,” says Burks. “Therefore, any individual, company, operation, business or farmer is able to decide which subscription package is best suited for them.”
